

SMS PRESENCE

TOWER BOX

Elegant and flexible stability for really big displays.

A unique design that completely hides cables and peripherals inside the product. Attractive and elegant on all sides, and thus able to be placed in the centre of the room. Perfect for large, heavy and touch sensitive displays, due to the very stable, patented design.

The motorised height adjustment is soft and quiet, readily available from a button at the side of the unit, behind the display. Motorized height adjustment works for most markets (both 110 and 230 V) and allows you to work ergonomically.

The displays can be locked with the accompanying locking screw for personal safety, or with a padlock (not included) which provides increased protection from theft.

The accurate factory assembly means that installation is easy and quick, while the hidden cable chain inside the product ensures that the cables run freely with no risk of fastening. The design of the SMS Presence is, furthermore, protected. Maximum display weight: 120 kg. Finish: aluminium/antracite grey.

▲ INFO

▲ QUESTIONS AND ANSWERS:

How do I gain access to the cables and equipment inside the product?

– Removable magnetic covers on both the front and the back of the product make it easy to gain access to cables and other media equipment.

Is it difficult to move the bracket with a display mounted on it?

– It's easy. You can move the equipment easily and safely from one room to another with the aid of two handles.
